

Appendix V

Process to Assess Whether Changes or Additions Should be Made to Structural Controls to Improve Water Quality

4.2.6.8.1 Process to assess water quality impacts of existing flood management control structures.

1. Develop and inventory of existing flood control management structures.
2. Determine potential sources of water quality impacts associated with the structure.
3. Identify BMPs that could be used to mitigate any potential impacts identified.
4. Identify the most critical needs for mitigation.
5. Develop a schedule for installing BMPs to address the most immediate concerns followed by less immediate concerns.
